

# NA2.3: Policy Development

Task Leader: Sergio Andreozzi, EGI.eu

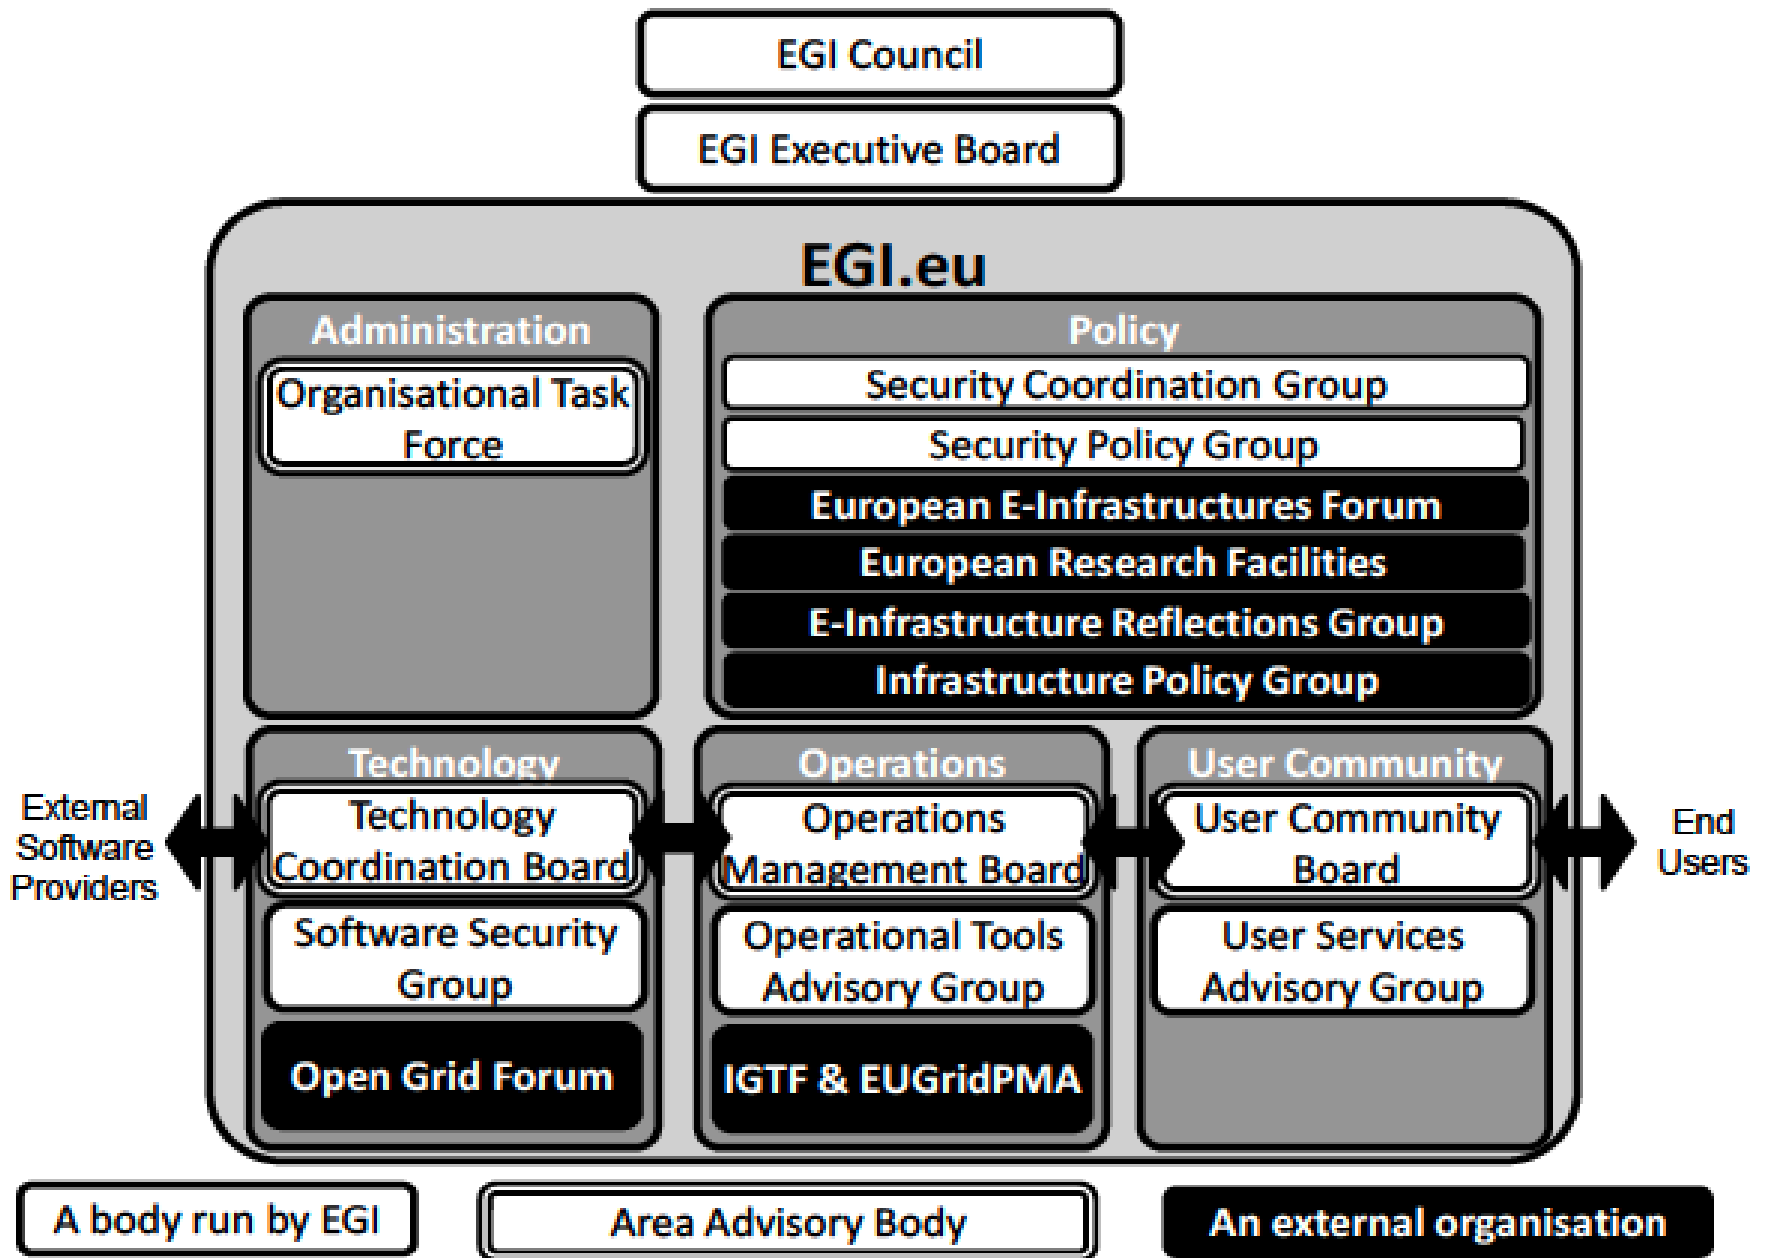

Task Leader's Meeting

10 June 2010 - Amsterdam, The Netherlands

# Objectives

- Support the development of policies
  - to govern the use and operation of the infrastructure
  - to integrate with other infrastructures
  - to interact with stakeholders and user communities
  - to liaise with external independent policy activities

we will support the work of groups through the provision of administrative support (i.e. meeting logistics, paper preparation, and technical secretariat)

# Involved Partners

1. EGI.EU

2. UPT

3. JKU

4. UNI LINZ

5. SWITCH

6. UCY

7. CESNET

8. KIT-G

9. BADW

10. CSIC

11. CSC

12. CNRS

13. TDC

14. IUCC

15. INFN

16. VU

17. FOM

18. SIGMA

19. CYFRONET

20. LIP

21. IPB

22. ARNES

23. UI SAV

24. TUBITAK ULAKBIM

25. STFC

26. UCPH

27. KTH

28. E-ARENA

29. AGSC

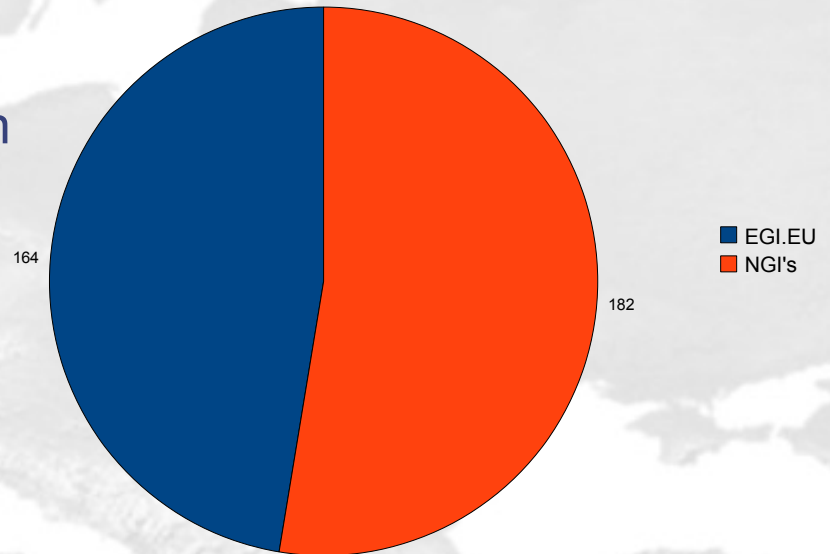

30. ASTI

31. ITB

32. NUS

# Effort

- Total PM: 364
  - EGI.eu gets 164
    - 1 PDM + 3 PDO's
      - PDO's – ongoing selection
  - 31 partners get 182 PM
    - Avg: 5,87
    - Min-Max: 1-23

# Milestones up to M6

- MS102 (M2)
  - Execution Plan: contribute participant list and activity
- MS205 (M3)
  - Establishing the policy area of the website covering the policy bodies and collaborating projects
- MS206 (M3)
  - Terms of reference and initial composition of the policy related groups within EGI.eu
- MS208 (M4)
  - The EGI becomes a member of EUGridPMA (and of IGTF)
- MS209 (M5)
  - Security Policies within EGI

# Deliverables up to M6

- D2.4 (M5) Roadmap for interactions with other DCI projects
  - Report describing how the other DCI projects will interact with each other and the expected relationships between the projects
- D2.5 (M5) Standards Roadmap
  - An overview of the relevant standards activity taking place in the EGI environment, both internally within the operational tools and described in the UMD roadmap through its external software providers.

# Other Activities up to M6

- Write MoU with 5 EU-funded DCI's projects
  - IGE, EMI, Venus-C, StratusLab, EDGI
- Define Interaction with EU-funded SIENA and engage
- Define Interaction with coming Virtual Research Communities EU-funded projects

# What we Require from Activities

- Support in
  - Identifying all the needs for policy development and the level of importance (for proper prioritization)
  - Developing policies where specific-domain expertise is needed
