@EOSC_eu

Purpose and Responsibilities
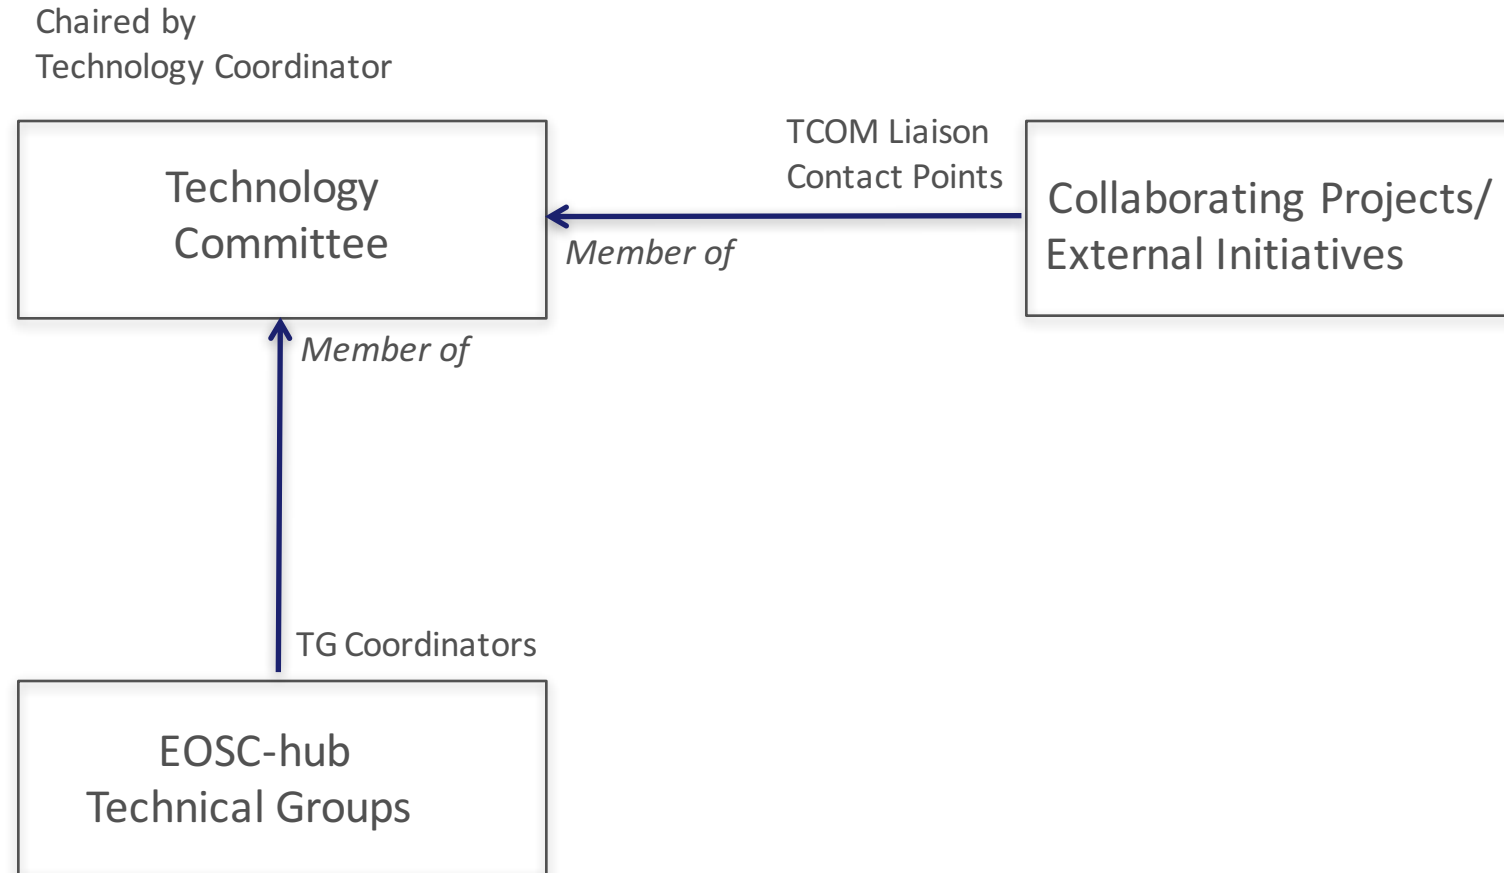

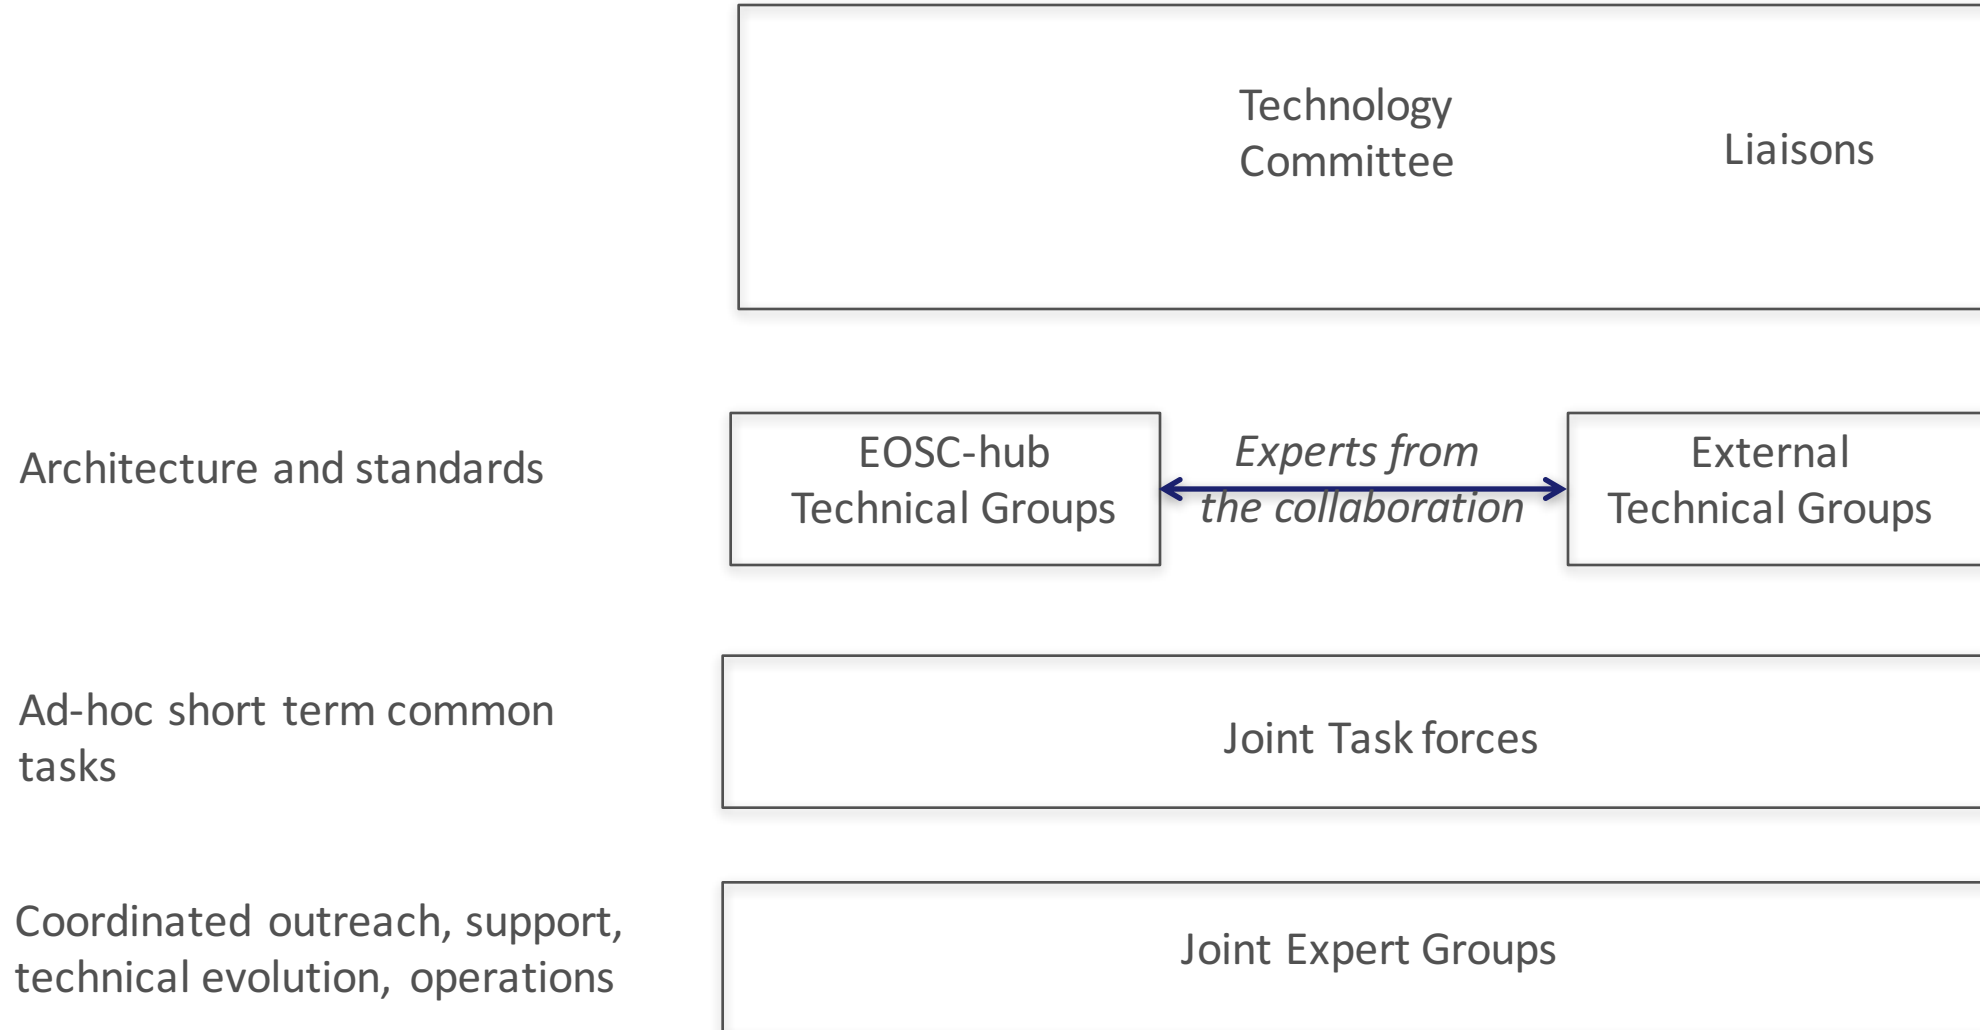

- The TCOM guides and works with the AMB with responsibility for:

- Defining, maintaining and evolving the technical roadmap,

- Stimulating and supervising the contribution to open source community projects and standards bodies,

- Ensuring compliance to standards and security in defining and assessing the acceptance criteria for the evolution of the service catalogue.

- The Group is authorized by the PMB. The Group works with the AMB.

Joint Task forces

Coordinated outreach, support, technical evolution, operations

Joint Expert Groups

TCOM appointment

- The TCOM remit is extended, when applicable, to include the responsibility of coordinating with external initiatives and projects of technical and strategic relevance. The TCOM can have members external to the EOSC-hub project.

  - *Note: TCOM external members are proposed by the AMB and appointed by the PMB according to the TCOM membership rules defined in the Consortium Agreement*

- TCOM external members are in all aspects (participation, voting, access to information, etc.) equal to regular TCOM members unless otherwise stated at the appointment.
