Data Management - a Grid enablers perspective

Monday, 19 September 2011 14:00 (13 minutes)

The e-BioInfra platform provides grid workflow management and monitoring services for biomedical researchers that use the Grid for data analysis.

As Grid enablers we have assisted users with both day-to-day and long time data management for their experiments.

In this presentation we will give an overview of our experiences, solutions and remaining challenges.

Presenter: SANTCROOS, Mark (Academic Medical Center Amsterdam)

Session Classification: Data Management Workshop
