New Security Policies for EGI

This session will present the new and/or revised security policies that the EGI Security Policy Group has been working on during the last 12 months. This is aimed at an audience of operations staff, CSIRTs, NGIs, VO managers, other Infrastructures and indeed anyone interested in learning about the new work in the area of security policy. Feedback and comments will be very welcome.

Required Facilities

data projector

Duration (90min sessions)
