# EGI-CSIRT F2F MEETING
## REPORT ON TRAINING AND DISSEMINATION ACTIVITIES

EGI-TF2011, Lyon 19 september 2011

Dorine Fouossong, NGI France

# What happened the last 5 months?

The EGI-CSIRT training and dissemination mission is to raise security awareness for security administrators by providing training and best practices.

- Plan and organize training events

- Collect and archive training materials used in past events.

- Support NGIs setting up local training events.

- Develop training material

- Setup and maintain EGI CSIRT public and internal wikis and mailing lists

- Others when requested by and agreed with EGI CSIRT

**General** | NGIs | Sites | Regional Support | ROD | COD

### Introduction [edit]

The EGI Operational Procedures Manual defines the procedures and responsibilities of the various parties involved in the running of the EGI infrastructure. As a newcomer, you need to understand the structure of the EGI project and roles of operators at different levels, and read the parts of the manual which apply to you. You are encouraged to read also the other parts of the manual. It is not necessary — we strive to keep the individual parts as independent as possible — but reading the whole manual will give you a complete overall picture of daily operations within EGI.

### How to use these Manuals [edit]

These Operational Procedure manual are designed to be a complete reference to all the
