SA2 in the EGI Ecosystem

A Virtuous Service Cycle

- Steering the EGI software evolution
 - Publish the UMD Roadmap
 - Collect and prioritise strategic requirements
 - Engage with Technology Providers
- Provision software for the EGI community
 - Ensure the quality of delivered software
 - Provide a unified middleware repository
 - Provide 2nd level support for deployed middleware

MoU

SLA

- Collect and prioritise requirements
 - From the EGI community
- Publish Middleware Roadmap documents
 - UMD Roadmap
 - UMD Release Schedule
