- Distribution facilities
- Upcoming releases
- Future plans
- Q&A

Overview

- Implementation details and architecture
  - https://twiki.cern.ch/twiki/bin/view/EGEE/MyEGEE
- Developers
  - 6 PM
  - ½ of David Horat over Y1 of project

Infrastructure

- MyEGI/MyEGEE follows SAM team procedures
- Bug/Task tracking system: JIRA
- Communication channel: GGUS
- Build system: Koji

Regionalization status

- Each ROC already has its own instance as part of regional Nagios

Distribution facilities

- SVN Repo: CERN SAM Subversion repository

- Twiki documentation

- EGEE-SA1 Yum Repository

Upcoming releases

- A major release of MyEGEE has been just done
  - First version compatible with Oracle
  - Cleanup, partial rewrite, tests and lots of bug fixes
  - http://cern.ch/samproject/blog/

Future plans

- MyEGI is covered in Y1 as JRA 1.3

- MyEGEE will
  - Change its name in the future
  - Be adapted to a new pluggable framework
  - Provide EGI-specific NGI views
  - Be the place to see availability, reliability and service status
  - Add 'GridMap style' TreeMap views

Q&A
