## WP11 – Training and Services for Service Operators, Researchers and Higher-Education

*"WP11 will manage a training programme to stimulate the knowledge transfer and facilitate adoption"*

- Define and coordinate the annual training plans for supporting research activities.
- Support the implementation of proper Data Management Planning (DMP) for helping research communities to manage their research data efficiently.
- Deliver of IT service management trainings to learn the fundamentals of IT service management processes and support the professional development of EOSC-hub services.
- Define and deliver training contents about Common and Federated services for supporting scientific activities of TS, CCs and research communities, and domain-specific training for data providers and data scientists.

## FREYA midway webinar

View Edit

[Agenda / Homepage](#)

### When:

Thursday, May 9, 2019 - 15:30 to 17:00

### Description:

The aims of this FREYA webinar are manifold:

- Present the results achieved so far
- Discuss the next developments
- Discuss how research communities can engage and collaborate with FREYA

### Webinar programme

00:00:00 Welcome - Francesca Morselli (DANS)

00:04:05 Introduction to FREYA - Simon Lambert (STFC)

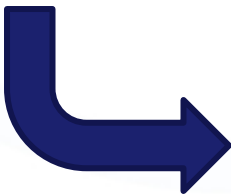

(To view the Webinar: Click on the image below)

This section provides a list of training materials being used during the EOSC-hub training events.

### Description:

This category contains basic information for those new to Persistent Identifiers created by the FREYA Project. This section will continue to be updated.

### Keywords:

PIDs created by the FREYA project

### Date created:

Thursday, May 16, 2019

### Data modified:

Thursday, May 16, 2019

- 33 partners involved in WP11
- 61 training events organized
  - 10 Data Management Training (in collaboration with OAA)
  - 12 FitSM training events (Foundation and Advanced level courses)
- 1400+ trained people
- 270+ training modules (slide decks, guidelines, Docker containers, Jupyter notebooks, etc.)
- Supported the training needs of external scientific communities such as: VIRGO, ENVRIplus, CODATA-RDA, NGSchool and advanced PhD courses at universities.
- Set-up of the Community of Practice (CoP) for Training Coordinators (with OAA and other project initiatives)

**Thank you for your
