

Africa ROC and SAGRID

Thursday, 16 September 2010 11:00 (15 minutes)

- Africa ROC and SAGrid The Africa Regional Operation Centre (Africa ROC) has been created as a coordination and support point for all sites in the Continent wanting to participate in the stimulating and challenging endeavour of creating a common Grid infrastructure to foster e-Science. Africa ROC is supported by many projects and initiatives. (<http://roc.africa-grid.org/>) SAGrid is a project to deploy a national grid infrastructure based on the gLite middleware from EGEE at several universities and national laboratories in South Africa.

Presenter: BECKER, Bruce (SAGrid)

Session Classification: Regional Initiatives
