The EPIKH Project

Thursday, 16 September 2010 11:45 (15 minutes)

- EPIKH The EPIKH project officially started on the 1st of March 2009. The strategic aims of the EPIKH project are to: • Reinforce the impact of e-Infrastructures in scientific research defining and delivering stimulating programme of educational events, including Grid Schools and High Performance Computing courses; • Broaden the engagement in e-Science activities and collaborations both geographically and across disciplines. These goals translate into the following specific actions: • Spreading the knowledge about the "Grid Paradigm"to all potential users: both system administrators and application developers through an extensive training programme; • Easing the access of the trained people to the e-Infrastructures existing in the areas of action of the project; • Fostering the establishment of scientific collaborations among the countries/continents involved in the project.

Presenter: BARBERA, Roberto (University of Catania and INFN)

Session Classification: Regional Initiatives
