

The role of the VRC: general discussion

Wednesday, 15 September 2010 16:20 (1h 10m)

All are welcome to participate in this discussion. The objective is to fine-tune how the EGI VRC accreditation process will be implemented but mainly to enable EGI to identify the most promising candidates for new VRCs to be established over the coming months.

Candidate VRCs will have a well-organised community with agreed contact points with which EGI can communicate. The VRC should be able to identify and prioritise its own requirements.

Session Classification: Virtual Research Communities
