2 November 2020

# Fair for Fusion – Open Access for fusion data in Europe

In Fair4Fusion we work on:

- Raising the profile and awareness of open data within the fusion programme.
- Laying the foundations for implementing an open data policy, particularly in the run up to the operation of ITER from the middle of the next decade.
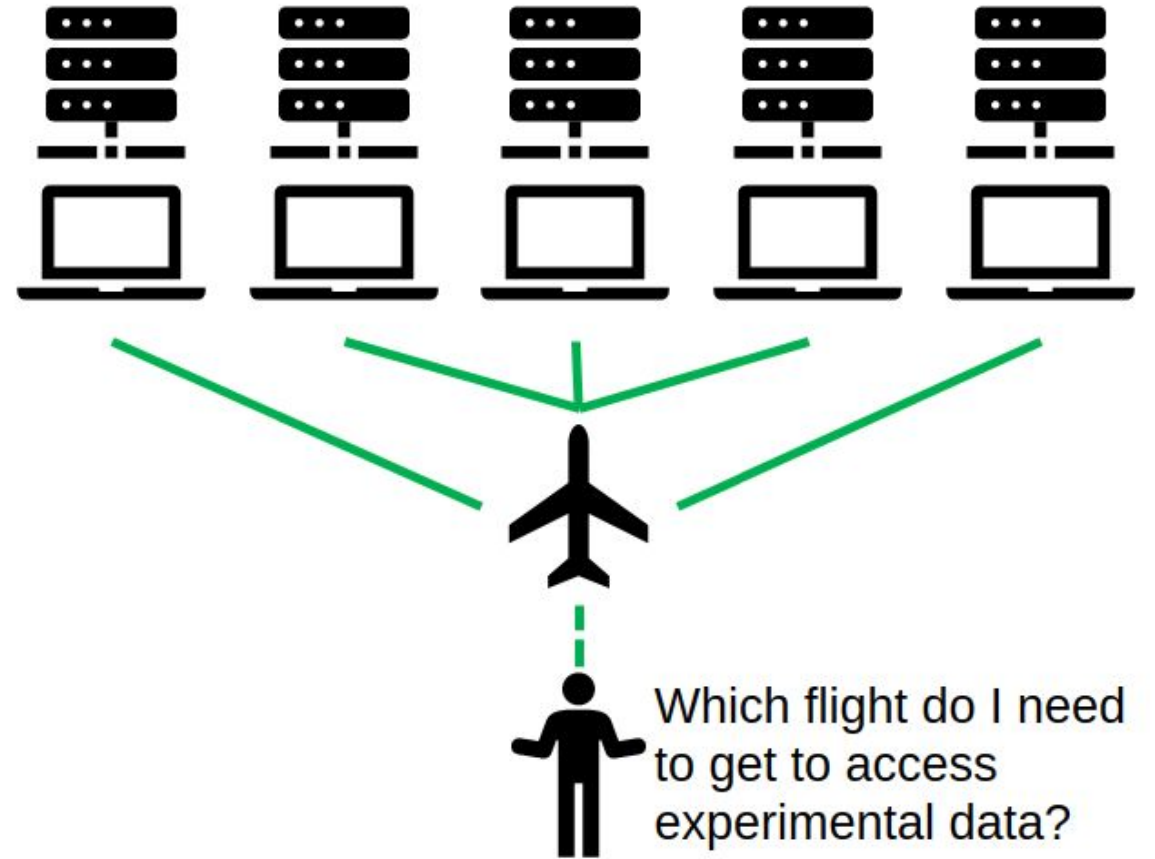

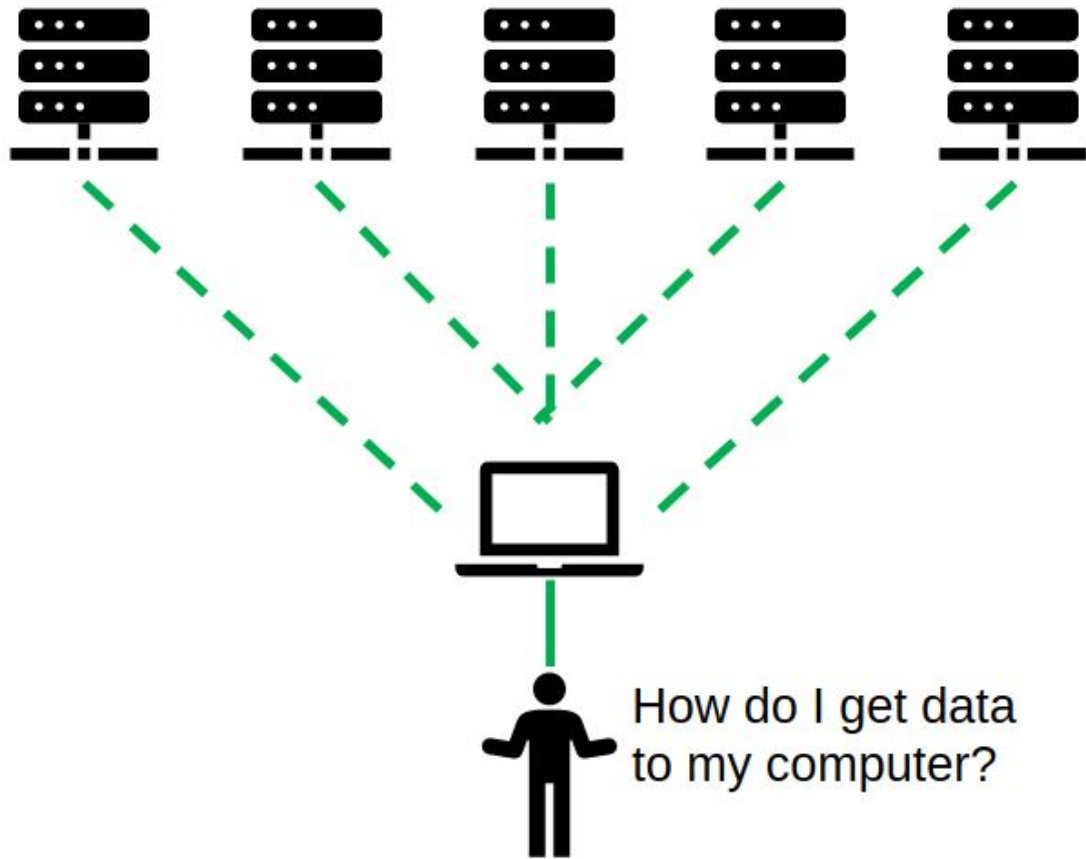

**Type of project:** Coordination and Support Action
**Overall budget:** € 1 987 960
**Project duration**: Sept 2019-Aug 2021

How do I get data to my computer?

Which flight do I need to get to access experimental data?

**Fair4Fusion - open access for fusion data in Europe**

# Aim is to make like simpler for the researcher
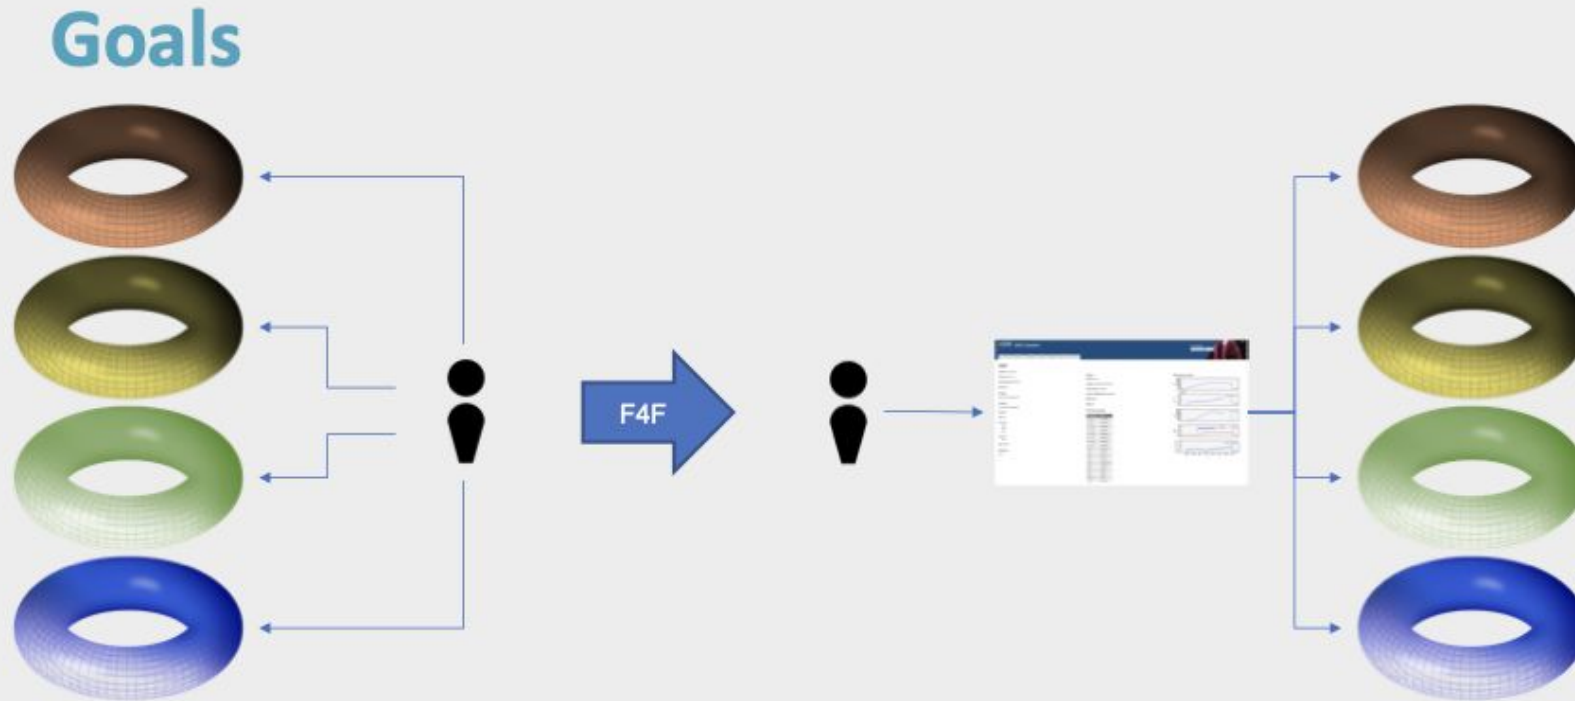

# And even better - to make use of additional resources

**Fair4Fusion - open access for fusion data in Europe**

This project has received funding from the Euratom research and training programme 2014-2018 under grant agreement No 847612
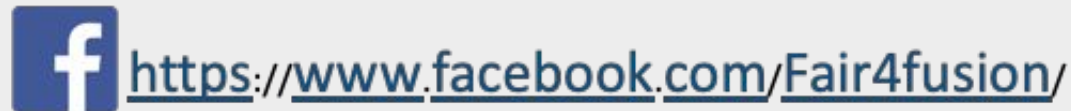

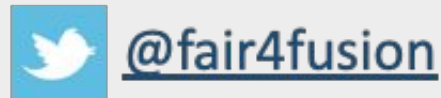

# Thank you

- **We welcome all and any feedback!**
