

Policy Management on Cloud Environments. An introduction to PolicyCLOUD

Tuesday, 3 November 2020 14:15 (15 minutes)

PolicyCloud project will improve policy making for public administrations across Europe by harnessing the potential of digitisation, big data and cloud technologies to support transparent, democratic, and evidence-based decision making around the creation and implementation of social and economic policy.

Presenter: MUNNE CALDES, Ricard (ATOS)

Session Classification: Cloud computing - Part 1
