Strengthening HPC Competences in Europe - the EuroCC and CASTIEL approach

Tuesday, 3 November 2020 15:32 (10 minutes)

Currently 33 National Competence Centres (NCCs) for HPC (and associated technologies) are set up within the frame of the EuroCC project. This is accompanied by the CASTIEL activity to support this on a European Level by maximizing the synergies between the nations and thus boost the evolutions of the National Competence Centres (NCCs).
