Enhance Collabwith services capabilities for academia- industry collaboration with EOSC services

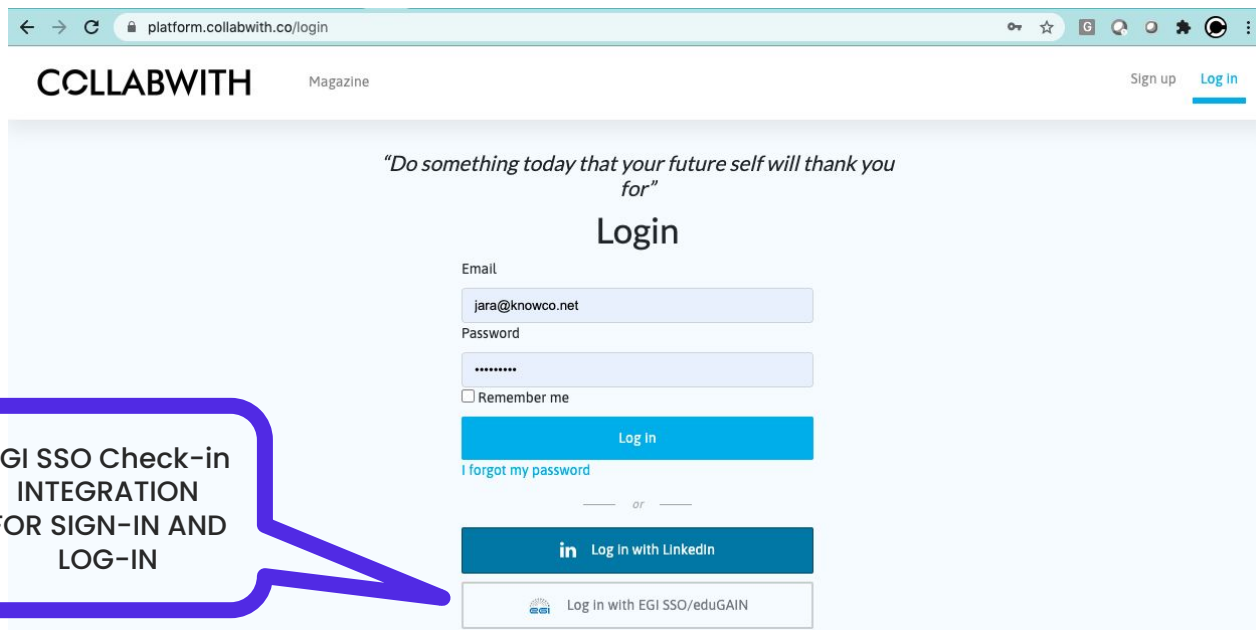

An aggregator of challenges, research results, technology ready to transfer and collaboration opportunities including “partner search” for EU funding and funding calls.

Collabwith is a global platform to standardized collaboration for innovation, our value proposal is to simplify, digitalize, accelerate the collaboration process from searching your partner until starting collaborating

The screenshot shows the Collabwith Marketplace interface. At the top, the navigation bar includes 'COLLABWITH', 'My Dashboard', 'Marketplace' (highlighted), 'Find Academics', 'Find Universities', 'Find Start-ups', 'Find Professionals', and a user profile 'HI, Jara!' with a 'Sign out' link. The main heading is 'Marketplace opportunities', with a sub-heading 'The marketplace offers the possibility to share opportunities with the Collabwith community. You can add search enquiries and offers here and find them.' and a blue 'Add an opportunity' button. Below this, a text block states: 'Additionally, you can find services and resources for various research domains along with Integrated data analytics tools of the European Open Science Cloud on the [EOSC Marketplace](#).' A search bar contains the text 'Find opportunities' and a blue 'Search' button. A callout box with a red border and arrow points to the search bar, containing the text 'EOSC MARKETPLACE FIRST PHASE INTEGRATION'. The search results section is titled 'Searching...' and displays two challenge cards. The first card is titled 'Challenge > by Community Manager' with a date '2021-05-17' and the text 'ESA CHALLENGE: Request for Information (RFI) on In-Orbit Servicing of a Spacecraft 100MEUR'. The second card is also titled 'Challenge > by Community Manager' with a date '2021-05-23' and the text 'ESA CHALLENGE: OPS-SAT Experiments 20-50KEUR'.

COLLABWITH MARKETPLACE

As a pilot of EOSC DIH, Collabwith Marketplace wants to support EOSC scientists to valorize and transfer their knowledge and technology with the marketplace tools such as the collaboration request, and smart legal contracts which includes special contracts for collaboration among academics and researchers.
