Gaia-X Architecture and Development: Implications for EOSC and the research community.

The Gaia-X project has grown from a community-based development to a formal AISBL that intends to take a strong role in EU cloud computing and EU data sharing initiatives. Synergies with EOSC are frequently cited, but to realize those synergies, the research community needs to understand the Gaia-X approach and its similarities, differences with EOSC, and the points of collaboration and coordination that are needed.
