DUET

Wednesday, 20 October 2021 11:45 (10 minutes)

DUET (Digital Urban European Twins) is a EU initiative which leverages the advanced capabilities of cloud, sensor data and analytics in Digital Twins, to develop more democratic and effective public sector decision-making. DUET Digital Twins provide virtual city replicas which simplify the understanding of complex interrelation between traffic, air quality, noise and other urban factors. Powerful analytics predict the impacts of potential change to make better evidence-based operational decisions and long-term policy choices.

Presenter: RAES, Lieven

Session Classification: Innovating Services Together - Workshop
