## Recent updates from EOSC

*Sergio Andreozzi, Head of Strategy, Innovation and Communications, EGI Foundation*

CMG Meeting  
23 March 2022

The work of the EGI Foundation  
is partly funded by the European Commission  
under H2020 Framework Programme

- EOSC MAR Consultation and feedback from EGI Federation/EGI-ACE project
- Upcoming EOSC General Assembly - Agenda topics
- Announcement of new EOSC Liaison Manager at the EGI Foundation

The EOSC Association launched a survey to provide feedback on the EOSC Multi-Annual Roadmap (deadline 21 March 2022)

- **Stage 2 (2023–2024): Expansion to production that generates added value**
  - *Expanding and building the core data infrastructure to support the full cycle of workflows for scientific research in key thematic areas. During this period, activities will build on pilots/demonstrators and work towards linking EOSC beyond the research communities to the wider public sector and the private sector will begin.*

## SRIA Structure

- Section 1 - New ways of science
- Section 2 - EOSC in the making
- Section 3 - Strategic objectives of the European Open Science Cloud
- Section 4 - Guiding principles
- Section 5 - Implementation challenges
- Section 6 - Boundary conditions
- Section 7 - Expected impacts
- **Section 8 - Roadmap**
- Section 9 - Conclusions

[Link to survey page](#)

## *Structure of the survey*

### 3 top level objectives for the EOSC

- GO1 Ensure that Open Science practises and skills are rewarded and taught, becoming the 'new normal';
- GO2 Enable the definition and adoption of standards, and the development of tools and services, to allow researchers to find, access, reuse and combine results;
- GO3 Establish a sustainable and federated infrastructure enabling open sharing of scientific results

### 3 levels of implementation and related priorities/outcomes

- L1: European level
- L2: National level
- L3: Institutional level

### General comments

*Extract of key messages from EGI*

## Priorities to be better highlighted

- Ensure the availability of a federated compute layer available to all researchers (EOSC Compute Platform)
- EU-wide programme to provide users support and training about resources and services made available in EOSC
- More focus on clear definition of the mechanisms for onboarding researchers in FAIR and OS practices
- Definition of the EOSC enterprise architecture
- Identifying working business models enabling sustainability
- Implementation of the EOSC data infrastructure
- Identification of key data sets to be made available in EOSC to show the added value
- Establish the EOSC Exchange
- Shift focus from RIs to the wider “researchers across all disciplines and organisations (small and large research infrastructures, and less developed organisations)”
  - RIs are already organised at EU-level; EOSC has the priority responsibility to create value for the national providers

## Key items in the current draft agenda

- Revision of the EOSC Association Statutes
  - The role of Mandated Organisations
- Up-date on the EOSC Partnership
- SRIA1.1 with up-dated Multi-Annual Roadmap
- Monitoring & Reporting
- The EOSC-A Task Forces
- Tripartite Collaboration and national events
- Horizon Europe project EOSC Focus

- Responsibilities:
  - Promote and oversee the EGI Federation participation in EOSC related initiatives, such as projects, consultations, task forces etc.
  - Liaise with the EOSC BoD and the EC for EOSC matters
  - Promote and oversee the participation of the EGI Community in EOSC related projects
  - Report to the EGI Community, Executive Board and Council on EOSC related activities
  - Work closely with the EGI Director, Executive Board and federation members to enhance stakeholder engagement in EOSC

# Dale Robertson joining the EGI Foundation

*Dale Robertson*

- On April 1st, [Dale Robertson](#) will join the EGI Foundation
- Role: EOSC Liaison Manager
- Projects:
  - EOSC Future
  - EOSC Focus
- EOSC Task Forces
  - She will continue in her role as co-chair of the EOSC Financial Sustainability Task Force
