iMagine - Imaging data and services for aquatic science

Thursday, 22 September 2022 17:35 (20 minutes)

iMagine is a new EU HORIZON project, coordinated by EGI, which aims to deploy, operate, validate, and promote a dedicated iMagine AI framework and platform, connected to EOSC and AI4EU, giving researchers in aquatic sciences open access to a diverse portfolio of AI based image analysis services and image repositories from multiple RIs, working on and of relevance to the overarching theme of healthy oceans, seas, coastal and inland waters. The presentation will go deeper into the backgrounds, objectives, and planned approach for this challenging new project.
