### **New supported linux distribution** ¶15m

**Speaker:** Julia Andreeva

Material to be loaded: WLCG Sites survey for Linux Options (last year)

.CERN and FNAL recommendation for AlmaLinux (on trial/verification)

.Several feedback

. WLCG has not decided yet between AlmaLinux and RockyLinux. There will be “probably” an indication for both. For sure, not making site managers to move from one to the other.

Questions about pakiti support continuity. It will be checked.

### **Security report** ¶15m

**Speaker:** Sven Gabriel (NIKHEF)

. Work has been done on dashboard

. IP range stills pending

. Alessandro: when suspending a site, status is changed in GOCDB. What would happen if a VO continues using it?

There is no policy forbidding VOs to use a suspended site.
