WLCG Community Meeting (Grid Deployment Board - GDB)

Wednesday, 21 June 2023 14:00 (4h 30m)

The Grid Deployment Board (GDB) is part of the Worldwide LHC Computing Grid Collaboration (WLCG) and meets every month. Normally those meetings are held at CERN, exceptionally in other places. This session will host the June GDB meeting.

The topics under discussion concerns operational aspects affecting the WLCG community and the EGI Infrastructure.

The agenda can be consulted in: <https://indico.cern.ch/event/1225113/>

The Zoom connection details are shown in the indico page (if logged in)
