# Feedback from the 1st review

“EGI-ACE has successfully established an infrastructure for data- and compute-intensive free-at-point-of-use services for research communities, which are delivered in the scope of the EOSC ecosystem.”

”the project demonstrated good quality work in line with the project plan and objectives with minor deviations.”

<p>Rec 1 - <b>Better capture and communicate project added value:</b></p>	<p>Foreground/background structured (and documented in D1.6)                  Added value for the users - 24 <a href="#">success stories</a> to Website                  Baseline is captured in all VA deliverables</p>
<p>Rec 2 - <b>Benchmark the implementation of use cases:</b></p>	<p>Built better costing of time &amp; resources needed for the use cases</p> <ul style="list-style-type: none"> <li>• Helped in final budget reassignments</li> <li>• Helped in sustainability planning</li> </ul>
<p>Rec 3 - <b>Make data space achievements visible on the Data Spaces landscape:</b></p>	<p>Participated in the OpenDEI Task Force                  Published [Check-in, DataHub, ITSM] in the IDSA <a href="#">catalogue</a> of Data Spaces building blocks                  Publishing ENES data space on the <a href="#">IDSA Data space radar</a></p>
<p>Rec 4 - <b>Strengthen Green Computing activities:</b></p>	<p><a href="#">Task Force</a> was set up as a “think tank” to capture status and track improvement                  9 → 14 providers monitor GC metrics (~Power Usage Effectiveness); 3 → 9 providers has GC roles                  Action list was turned into a new project, to start in March 2024 with (DIGIT) ESRIs</p>
<p>Rec 5 - <b>Define learning paths through training courses</b></p>	<p>Training materials have been structured into <a href="#">4 different level courses</a> on docs.egi.eu AND are <a href="#">catalogued</a> in the EOSC Portal</p>
<p>Rec 6 - <b>Improve document quality:</b></p>	<p>Standard was enhance and enforced to improve quality: templates updated (consistent format, ToC, page number), authors were requested to adopt a consistent way of using reference: information and caption of figures, graphics, tables. Statistics and metrics are used with reference</p>
<p>Rec 7 - <b>Make recommendations actionable:</b></p>	<p>Turned mid-term recommendations SMART and renamed them as Strategic Priorities                  Wrote an advisory document for the EC (as consultation input for the EOSC Procurement)                  Prepared final recommendations with validation at EGI'23</p>
