iImagine RP1 review
December 5th 2023

iImagine receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101058625.

OBJECTIVE:

*To deploy, operate, validate, and promote a dedicated iImagine AI framework and platform, connected to EOSC and AI4EU, giving researchers in **aquatic sciences** open access to a **diverse portfolio of AI based image analysis services and image repositories** from multiple RIs, working on and of relevance to the overarching theme of 'Healthy oceans, seas, coastal and inland waters'.*

- **36** months
- From **Sept. 2022** until **Aug. 2025**
- **€4.5 million** EC funding
- **23** participants (**19** beneficiaries + **4** affiliated partners)
- **18** service installations (Virtual Access)

Achieving impact with 8+ use cases and 10+ RIs (5 mature, 3 prototypes, External)
