EGI's Technical Expertise to Fuel EOSC EU Node Development

Wednesday, 2 October 2024 11:15 (15 minutes)

The talk will dive into the contribution of EGI to the building of the EOSC EU Node, the first in a new federated EOSC node ecosystem. EGI participates in developing the core services constituting the EOSC EU Node and brings the expertise in service planning, delivery, operation, and control founded on FitSM. Moreover, EGI is responsible for a comprehensive verification and validation plan for the entire EOSC EU node, ensuring the best possible experience for the users regarding the availability and stability of features, performance, and security. Last but not least, EGI oversees the security coordination of the EOSC EU Node.
