The CESSDA Pilot Node

Wednesday, 2 October 2024 15:45 (15 minutes)

This talk will very briefly discuss the three main aspects of the proposed CESSDA Pilot Node:
- Resource usage tracking and cost calculation for service providers;
- Access to digital objects using institutional credentials;
- PID registration and resolution for digital objects.

The problems to be addressed, user scenarios, constraints and target groups for each will be elaborated.
