

SpectrumCoP_Milestone3

The project SPECTRUM defined as part of Milestone 1 (end-of-March 2024) a list of working groups to be operated during the first part of the project, from Jan 2024 to March 2025.

The list is available at [this link](#).

For Milestone 3, WP3 and WP5 have formed the initial participation to the working groups.

Each group has at least 2 chairs (chosen between the 3 relevant communities: HEP, RA and Infrastructures)
