

# Introduction

Alessandro Paolini  
EGI Foundation

04-07-2024  
EGI 2023 – GDB meeting

# New colleague in SDIS/Operations team

From May 1<sup>st</sup> – <https://www.egi.eu/people/damla-rowlandson/>

## Damla Rowlandson

- Senior Service Delivery Officer and IMS Manager
- Over 15 years of experience in IT operations, cloud services management, and technical support, Damla has led strategic initiatives and managed critical ITSM processes
- She will take over the Manager role of our Service Management System based on ISO20k
- Coordination of the technical roadmap of the EGI Core Services

# UMD Release Team meeting – reactivation

<https://confluence.egi.eu/x/wgXpB>

- The UMD Release Team (URT) is a coordination group, under the EGI Operations umbrella.
  - Continuation of some of the coordination activities carried out by the European middleware projects
  - Keep the communications active between product teams
  - Open a new communication channel between the EGI and the middleware developers.
- Last meeting more than one year ago, during EGI-ACE
  - Where it was defined the initial list of products for UMD5 (EL9)
- When UMD5 is released, we restart with a regular schedule of URT meetings
- Currently restructuring the list of [Products ID Cards](#)
- Plans to control the UMD releases through CHM process
