

Workshops on e-Science Workflows

Friday, 10 February 2012

Workflow Systems and Requirements - Presentations (09:05 - 10:50)

-Conveners: Gergely Sipos; Richard McLennan

time	[id] title	presenter
09:05	[2] Biodiversity Virtual e-Laboratory (BioVeL): Robust biodiversity workflows running on the GRID	Dr DONVITO, Giacinto
09:20	[4] Globus-based Technologies for Supporting Advanced e-Science Workflows – An IGE Perspective	Dr LUCIAN MUNTEAN, Ioan
09:35	[5] Agile Analysis Framework for Complex Iterations and Data Integration	OVASKA, Kristian
09:50	[6] myExperiment 2.0 - preserving digital research objects using the Wf4Ever Architecture	SOILAND-REYES, Stian
10:05	[3] SHIWA technology to enable the integration and collaboration of various workflow systems used in Europe	KACSUK, Peter
10:20	[0] A flexible zone model for data privacy and confidentiality in medical research	Dr KUCHINKE, Wolfgang
