## **PRACE Distributed Infrastructure Services and Evolution, Tools**

*Wednesday, 28 March 2012 16:00 (30 minutes)*

Axel Berg: PRACE Distributed Infrastructure Services and Evolution, Tools

For the integration of European HPC facilities PRACE operates services on Networking, Data management, Computing, AAA (Authentication, Authorization and Accounting), User environment and Monitoring. Service quality controls are in place to guarantee the reliability of the services. In parallel PRACE collects new user and infrastructure requirements and evaluates tools to respond to the new requirements.

**Presenter:** Mr BERG, Axel

**Session Classification:** PRACE Workshop
