

Resource Centre Forum

Proposed Terms of Reference

T. Ferrari/EGI.eu

22/11/2011

- Technology
 - To contribute to the medium/long-term evolution of software by providing feedback and requirements (reflecting the coordinated position of the Resource Centres)
 - Complementing feedback from NGIs
 - To advise the OMB on RC-specific technology issues
 - To share information about local pilot activities and developments, avoid duplication
- New user communities
 - To coordinate with other RCs the support to new user communities, EGI facilitating contacts with projects and international collaborations
 - Coordinated resource provisioning across EGI
 - Coordinated “technical solution”

- RC
 - Closer collaboration with **EGI Technology Providers and EGI Boards** (security groups, OMB, TCB)
 - Closer collaboration with **user communities** (other than WLCG) supported by EGI (UCB) -
 - Engagement at an **international** level
- EGI
 - Consultancy
 - Better connection with RCs
 - Coordinated resource provisioning

- RC Forum is coordinated by RC representatives
- Implications of RC Forum as a EGI Board
 - RC Forum commits to contribute to the good running, to the evolution and expansion of EGI cooperating with NGIs and the existing policy boards, and vice versa
 - Reporting in both directions
