

## Minutes COD meeting 23-2-2012

Present: Malgorzata Krakowian, Marcin Radecki, Luuk Uljee, Ernst Pijper, Ron Trompert

### **Action items and GGUS tickets**

2: Can be closed

7: Can be closed

12: Can be closed. No further progress on this is to be expected. RT will inform Tiziana and Peter.

15: After Malgorzata's holidays we will continue with this. Malgorzata will do the preparation and after that we will decide on how to distribute the workload.

16: Can be closed.

There will be a GGUS ticket from the Ukraine who want to join the happy EGI family.

It was agreed that every month one NGI does the A/R and unknowns and the other NGI the ROD performance index and the toplevel BDII followup.

### **Newsletter**

1. Core services (MR)
2. ROD Performance Index (RT)
3. Community forum (RT)
4. Response to questionnaire (RT)

Input will be given by Monday February 27<sup>th</sup>

### **OMB**

We are going to suggest to Tiziana to have a COD slot to discuss top level BDII, ROD performance index followup and ROC\_CRITICAL issue

### **TF**

The suggestion by Luuk about the RP training at the EGI TF in Prague was discussed. The conclusion was that training is good but the internal drive at a RP to do a proper job should be present. Otherwise any effort to educate RPs is useless. After the CF we will look into this further.

### **AOB**

MR – Discuss input from questionnaire. There was only one question that was relevant for COD, no. 35. Our response will be given in the newsletter. Two respondents claimed lack of responsiveness on our side. We feel that if we need to respond to anything, people should submit a GGUS ticket.

LU – There is a discrepancy between myEGI and ACE. Further, unknowns are OR-ed. This cranks up the number of unknowns. Luuk will bring this up with Tiziana.
